BANKRUPTCIES

Dakota Plains Holdings Chapter 11 Petition Filed

Dakota Plains Holdings and six affiliated Debtors filed for Chapter 11 protection with the U.S. Bankruptcy Court in the District of Minnesota, lead case number 16-43711. The Company, which transloads crude oil and related products, is represented by Michael McGrath of Ravich, Meyer, Kirkman, McGrath, Nauman & Tansey. The Company states that this filing was made in order to "preserve value and accommodate an eventual going-concern sale of Dakota Plains' business operations." Dakota Plains Holdings also announced that it filed a motion for Court approval of the sale of substantially all of the Company's assets to BioUrja Trading for a purchase price of \$8.55 million. BioUrja Trading is the stalking horse bidder in a sale process under Section 363 of the Bankruptcy Code, and the asset purchase agreement will require Court approval and be subject to higher or better offers. Dakota Plains Holdings is seeking and expects to obtain up to \$2 million in post-petition debtor in possession financing from its senior secured lender, SunTrust Bank, which, subject to Court approval, will provide the Company with liquidity to maintain its operations in the ordinary course of business during the Chapter 11 process. SunTrust Bank supports the sale process. Gabe Claypool, president, C.E.O. and C.O.O. of Dakota Plains Holdings, comments, "We believe the Chapter 11 process will enable the terminal to continue operating and successfully restructure our balance sheet to position us for the future."

Modular Space Chapter 11 Petition, Plan Filed

Modular Space and five affiliated Debtors filed for Chapter 11 protection with the U.S. Bankruptcy Court in the District of Delaware, lead case number 16-12825 (Modular Space Holdings). Morgan of Young Conaway Stargatt & Taylor. Concurrent with the petition, the Company also filed with the Court a Joint Prepackaged Plan of Reorganization and related Disclosure Statement. According to the Disclosure Statement, "The RSA and the Plan contemplate a prompt emergence from bankruptcy with the following key terms: The First Lien Lenders will provide the Debtors with post-petition financing to fund their operations during the pendency of the Chapter 11 Cases; ...General unsecured claims, to the extent not paid earlier by order of the Court, would either be paid in full in Cash or Reinstated on the Effective Date...; Claims arising under the Debtors' prepetition Indenture would receive their pro rata share of 9,122,999 New Common Equity Interests of a reorganized entity to be determined in accordance with the Plan, which will own, directly or indirectly, 100% of the equity interests in Modular Space Corporation as of the Effective Date (the 'Reorganized Entity') and the right to participate in an offering of equity in the Reorganized Entity (the 'Rights Offering') pursuant to which they may subscribe to purchase their pro rata share of an additional 18,317,500 New Common Equity Interests in the Reorganized Entity....Existing equity interests in Holdings will receive: their pro rata share of 877,001 New Common Equity Interests in the Reorganized Entity; and their pro rata share of two tranches of warrants, which may be exercised in exchange for an aggregate of 1,250,000 New Common Equity Interests in the Reorganized Entity." *See Feature on P. 5 for more information on Modular Space.*

CONFIRMS & EMERGENCES

Basic Energy Services Plan Effective

Basic Energy Services' First Amended Joint Prepackaged Chapter 11 Plan of Reorganization became effective, and the Company emerged from Chapter 11 protection. The U.S. Bankruptcy Court confirmed the Plan on December 9, 2016. Roe Patterson, chief executive officer comments, "Today marks the completion of a restructuring and recapitalization that allows the Company to move forward with a solid financial foundation from which we expect to continue to strengthen our business and grow." Through its Plan, Basic Energy Services equitized more than \$800 million of unsecured debt, including accrued interest, eliminated over \$60 million in annual cash interest and raised \$125 million of new capital. The Company received approval to list its new common stock with the new CUSIP number 06985P 209 under the same ticker symbol "BAS" as the existing shares of the Company's issued common stock. Under the Plan, pre-petition holders of the Company's unsecured notes will receive 14,925,000 new common shares, representing approximately 57.8% of the new common shares after giving effect to shares issuable in connection with the rights offering and before giving effect to the shares issuable under the management incentive plan and the warrants. BankruptcyData's detailed Plan Summary notes, "The Existing Equity Interests will be cancelled without further action by or order of the Bankruptcy Court. Notwithstanding the foregoing, each holder of an Allowed Existing Equity Interest will receive its pro rata share of New Common Shares representing, in the aggregate, 0.5% of the New Common Shares issued on the Effective Date and the Warrants. Upon conversion of the New Convertible Notes (assuming such conversion occurs 36 months after the Effective Date), the New Common Shares issued to holders of Allowed Existing Equity Interests will comprise 0.26% of the total outstanding New Common Shares." This oil and gas well site services provider filed for Chapter 11 protection on October 25, 2016, listing \$1.2 billion in pre-petition assets. *Visit [BankruptcyData](#) for the full Plan Summary.*

Company History & Structure

Modular Space Corporation (ModSpace or MSC) was founded in June 1986 under the name Resun Leasing. The ModSpace name launched in 2007 after Resun's acquisition of General Electric Capital's North American modular space business. Resun then changed its name and relocated its global corporate headquarters to Berwyn, PA.

Today's MSC is the largest United States-owned provider of temporary and permanent modular buildings and is among the largest suppliers in the U.S. and Canada of temporary modular space and permanent modular construction. The Company provides a full range of buildings and storage products including office trailers, mobile offices, temporary classrooms, modular office complexes and portable storage units. MSC serves a diverse industries, including commercial, construction, education, government, military, healthcare, industrial, energy, retail and sports and entertainment.

MSC is a wholly-owned subsidiary of Modular Space Holdings and the main operating company within the Debtors' corporate structure. ModSpace Financial Services Canada, Ltd. (MFSC) is the

operating entity for the Debtors' business in Canada and a wholly-owned subsidiary of MSC; therefore, the center of main interests for MFSC are located within the United States. A related proceeding under Canada's Companies' Creditor Arrangement Act has been commenced on behalf of MFSC before the Ontario Supreme Court of Justice (Commercial List).

Financial Challenges

According to documents filed with the U.S. Bankruptcy Court, "ModSpace's business has historically been driven by several macro-economic factors, including commercial office vacancy rates, employment levels, non-residential construction starts and commodity prices. With the widespread adoption of modular buildings in the energy and mining industries, oil and commodity prices became further key indicators of demand."

As a result of its dependence on these macro-economic trends, 2007's economic recession deeply impacted MSC's business: Utilization levels plummeted from around 80% mid-2007 to just 61% in early 2012. Zolfo Cooper's David Orlofsky explains, "The reduction in utilization and correlated reduction in rental prices and margins was the result of an unprecedented drop in non residential construction compounded by the effect of significant increases in unemployment levels across the United States and Canada."

Origination levels slowly began improving in late 2010, particularly as investment in the oil and gas industry increased modular product demand. However, that oil and gas-related momentum started to reverse in November of 2014 in connection with dramatic oil price declines. As a result of its deteriorating financial condition, MSC began exploring refinancing options in the summer of 2015. The Company was ultimately unable to "reach mutually agreeable terms" with existing ABL lenders. MSC then realized a necessary refinancing was likely only achievable via a merger transaction.

In March 2016, the Debtors entered into a merger agreement with Williams Scotsman International, under which ModSpace would acquire William Scotsman's North American modular operations. June 2016 brought MSC's announcement that the respective investment committees "failed to approve the transaction," and the agreement was terminated in August 2016. A handful of other equity proposals were subsequently explored and determined to be "unacceptable."

(Feature continued on P. 6)

FEATURE *CONTINUED*

In August 2016, MSC "shifted its focus to a stand-alone restructuring." The Company had pre-emptively engaged Lazard Middle Market and Lazard Frères & Co. as well as Zolfo Cooper to assist with these efforts. MSC and an ad hoc group of noteholders soon executed non-disclosure agreements and met with the management team and its advisors to discuss various equity proposals. Court-filed documents state, "Following the meeting, the Ad Hoc Group of Noteholders expressed its preference to proceed with a stand-alone restructuring or recapitalization transaction."

These discussions resulted in a November 2016 term sheet contemplating a consensual restructuring via a prepackaged Chapter 11 filing. On December 20, 2016, the Debtors, the ABL lenders, the ad hoc group of noteholders and Calera Capital Advisors reached an agreement on a recapitalization, memorialized in a restructuring support agreement (RSA) in support of a prepackaged Chapter 11 Plan that provides for, among other things, the following upon Plan effectiveness:

- ABL lenders will provide the Debtors with post-petition financing to fund their operations during the pendency of the Chapter 11 cases.
- Administrative expense claims and pre-petition priority claims will be paid in full in cash upon emergence.
- Claims arising under the Debtors' pre-petition indenture will receive the following:
 - Their pro rata share of 9,122,999 shares of equity of a reorganized entity, to be determined in accordance with the Plan, which will own, directly or indirectly, 100% of the equity interests in MSC as of the effective date and the right to participate in an offering of \$90 million of equity in the reorganized entity pursuant to which they may subscribe to purchase their pro rata share of an additional 18,317,500 shares of equity in the reorganized entity; and
 - In exchange for their agreement to backstop the rights offering, certain members of the ad hoc group of noteholders will receive a backstop fee in an aggregate amount equal to 5% of the equity offered in the rights offering, or 915,875 shares of equity in the reorganized entity.
- Existing equity interests in Holdings will receive the following:
 - Their pro rata share of 877,001 shares of equity in the reorganized entity and
 - Their pro rata share of two tranches of warrants, which may be exercised in exchange for an aggregate of 1,250,000 shares of equity in the reorganized entity.
- In the event of an alternative transaction, the holder of management agreement claims against MSC will be entitled to receive a distribution in the event of a qualifying liquidity event.
- The issuance of equity in the reorganized entity to holders of notes and existing equity interests in Holdings will be subject to dilution by equity compensation issued in connection with a management incentive program), equity issued to the former independent directors pursuant to the Plan or other issuance of additional new equity securities on or after the effective date.
- The ABL credit agreement will be amended, restated, modified and assumed by the reorganized Debtors pursuant to the exit credit facility.
- Subject to an alternative transaction, each holder of all other allowed claims will receive treatment that renders such allowed claims unimpaired (either through reinstatement or satisfaction of such claim).

Chapter 11 Filing

In connection with the terms of the RSA, MSC and affiliated Debtors initiated a December 21, 2016 Chapter 11 filing in Wilmington, DE, concurrently filing a Joint Prepackaged Plan of Reorganization and related Disclosure Statement. The Court scheduled a February 7, 2017 hearing to consider both the Disclosure Statement and Plan, with objections due by January 25, 2017.

According to Orlofsky, "The Plan will significantly delever the Debtors' balance sheet and allow the Debtors to continue the successful operation of their businesses. Because the Plan provides more value to creditors than would have been possible under a liquidation of the Debtors' businesses, the Debtors anticipate confirming the Plan within a short timeframe."

Caesars Entertainment Operating Company Covenant Breach Announced

According to documents filed with the SEC, Caesars Entertainment Corporation (CEC) announced that it received notice from its creditors claiming to hold a majority of the claims (the Majority Bank Creditors) under the first lien bank debt incurred by Caesars Entertainment Operating Company (CEOC), pursuant to third amended and restated credit agreement by and among CEC, CEOC, lenders party thereto and Credit Suisse AG, alleging breaches of certain covenants and obligations. The filing explains, "In particular, the Notice alleges that the PropCo First Lien Credit Agreement Documents (as defined in the Debtors' Third Amended Joint Plan of Reorganization [the 'Plan']) are materially inconsistent with the Bank RSA and unacceptable to the Majority Bank Creditors and CEOC is in breach of certain covenants relating thereto. The Notice states that pursuant to the Bank RSA, the unacceptable terms of the PropCo First Lien Credit Agreement Documents and existing covenant breaches, if not cured by 12:01 a.m. on December 24, 2016, shall give rise to 'Creditor Termination Events' (as defined in the Bank RSA) that entitle the Majority Bank Creditors to immediately terminate the Bank RSA." CEC notes that the applicable parties are currently in discussions; however, should the Bank RSA terminate, other creditors would also have the right to terminate support of the Debtors' restructuring. CEC's filing also states, "Further, as currently drafted, the Plan requires Majority Bank Creditor support in order to become effective."

The Trustee has specifically requested that the Debtors hold off on their own independent efforts to develop and communicate a chapter 11 plan term sheet and business plan. This development, coupled with the fact that the Debtors' cases have several layers of complexity, including with respect to the number of Debtors and their affiliates, their location around the world, their involvement in insolvency proceedings in at least four other jurisdictions, and the complex reporting (which they have been complying with) all support the extension requested in this Motion....The Debtors have kept their lender group apprised of these developments while maintaining timely compliance with their reporting requirements. Energy Future Holdings Dismissal Denied

The U.S. Bankruptcy Court issued an order denying the motion of individual parties Shirley Fenicle, David William Fahy, John H. Jones and David Heinzmann to dismiss the Chapter 11 cases of Energy Future Holdings' "Asbestos Debtors": EECI, EEC Holdings, LSGT SACROC and LSGT Gas on the grounds that the bankruptcy petitions were not filed in good faith. The order states, "The evidence clearly establishes that based on the totality of the circumstances the LSGT Debtors' bankruptcy petitions were filed in good faith because the filing was for a valid bankruptcy purpose and not as a litigation tactic. The LSGT Debtors' bankruptcy was filed for three primary purposes. First, they were filed to avoid immediate cash flow insolvency....Second, the Debtors as a whole were facing the prospect of a huge \$6.5 billion deconsolidation tax for which three of the LSGT Debtors would have been jointly and severally liable....Third, the LSGT Debtors filed bankruptcy in the hope of negotiating a resolution in bankruptcy that would maximize both the value of their assets and the recovery on their asbestos related claims....The plan currently before the Court and scheduled for confirmation in February 2017 provides just that, even though EFH Corp.'s other unsecured creditors are impaired to the tune of ten cents on the dollar and all other intercompany claims are being discharged."

If the Tier 2 'Stretch' level is met, the KEIP will have a total plan cost of \$3,553,505, which amounts to an average of \$592,251 per KEIP Participant. Payouts were determined based on a percentage of each KEIP Participant's target bonus. If the Tier 1 'Target' level is met, no KEIP Participant will receive more than \$750,000; if the Tier 2 'Stretch' level is met, no KEIP Participant will receive more than \$1,500,000." The Debtors also filed with the Court a motion to file certain unredacted version of the KEIP/KERP motion under seal, and directing parties to redact confidential information. The Court scheduled a January 10, 2017 hearing to consider both the KEIP/KERP motion and its seal, with objections due by January 3, 2017.

Performance Sports Group Exhibit Added

Performance Sports Group filed with the U.S. Bankruptcy Court a notice of filing of redacted Exhibit B to (1) the Debtors' motion for an order approving (i) a key employee incentive plan (KEIP) and (ii) key employee retention plan (KERP) and (2) motion for (i) an order authorizing the Debtors to file (a) its motion for approval of KEIP and KERP in redacted form publicly and (b) an unredacted version under seal and (ii) directing parties to redact confidential information. According to documents filed with the Court, "The exhibit contains charts which show a summary of the KEIP and KERP including the number of participants, the total plan cost and the average cost per participant. The KEIP payouts are based on total consideration from Sale. No KEIP payments are earned unless the Company closes a transaction with Sale proceeds to the Company equal to or greater than \$580 million. The KERP provides retention payments to 60 employees ranging from 12.5% to 25% of annual base salary. The average retention payment is equal to 21% of annual base salary."

Republic Airways Holdings Plan Filed

Republic Airways Holdings filed with the U.S. Bankruptcy Court a Second Amended Joint Plan of Reorganization and related Disclosure Statement. According to the Disclosure Statement, the section on Class 2(a) (Reinstated Aircraft Secured Claims) is amended to add the following: "Under the Plan and based on the Debtors' estimate of Allowed General Unsecured Claims, American will receive a distribution representing approximately 25% of the New Common Stock, Delta will receive a distribution representing approximately 17.35% of the New Common Stock, and United will receive a distribution representing approximately 19.16% of the New Common Stock (and American, Delta and United will collectively receive distributions representing approximately 61.51% of the New Common Stock). Additionally, certain other claimants, including affiliates of Embraer S.A. and GE Capital Aviation Services LLC are each expected to receive a distribution representing more than 5% of the New Common Stock....Given the concentrated holdings of the New Common Stock upon emergence from chapter 11, a few of the large holders of New Common Stock, were they to act as a group, could control the outcome of certain actions requiring stockholder approval, including the election of directors, or block actions requiring majority or supermajority consent."

Republic Airways Holdings Extension Sought

Republic Airways Holdings filed with the U.S. Bankruptcy Court a second motion to extend the exclusive period during which the Company can file a Chapter 11 plan and solicit acceptances thereof through and including March 31, 2017 and June 1, 2017, respectively. The motion explains, "Republic submits that the requested extensions of the Exclusive Periods will allow the plan process to continue in a rational manner, preserve enterprise value, and provide Republic with a fair and reasonable opportunity to solicit acceptances and proceed to confirmation as contemplated by chapter 11 of the Bankruptcy Code." The Court scheduled a January 18, 2017 hearing on the motion.

Republic Airways Holdings Disclosure Statement Filed, Approved

Republic Airways Holdings filed with the U.S. Bankruptcy Court a Modified Disclosure Statement for the Second Amended Joint Plan of Reorganization. The Court subsequently approved the Disclosure Statement. According to documents filed with the Court, "Given the concentrated holdings of the New Common Stock upon emergence from chapter 11, a few of the large holders of New Common Stock, were they to act as a group, could control the outcome of certain actions requiring stockholder approval, including the election of directors, or block actions requiring majority or supermajority consent." The modified Disclosure Statement notes, "On November 28, 2016, the Court entered an order granting the relief requested in the Merger Approval Motion [ECF No.1236], and, as a result, Republic Airline and Shuttle will be merged effective January 31, 2017 irrespective of whether the Effective Date has yet occurred."

Stone Energy Objections Filed

Stone Energy and its ad hoc noteholder group filed with the U.S. Bankruptcy Court separate objections to the ad hoc shareholders' committee's motion to appoint an official committee of equity security holders. The Company argues, "Unfortunately, however, the incontrovertible facts demonstrate no basis to conclude that there would be any recovery for existing equity absent the agreement of the Consenting Banks holding 100% of the \$341,500,000 of Prepetition Banks Claims and Consenting Noteholders holding 79.7% of the \$1,075,000,000 of Prepetition Notes Claims reflected in the Restructuring Support Agreement and the Plan....The appointment of an equity committee is an extraordinary remedy. Applicable case law provides that solvency is a prerequisite for the appointment of an official committee of equity holders. Here, the movant (the 'Ad Hoc Equity Group') has not, and cannot, meet its heavy burden to prove that the Debtors are solvent. There is no doubt that the Debtors are insolvent. The Ad Hoc Equity Group also has not, and cannot, meet its heavy burden to prove that the Stone Board and the Debtors' management are unable to adequately take into account the interests of equity holders....While the appointment of an equity committee is not necessarily incompatible with an expeditious confirmation, counsel for the Ad Hoc Equity Group has already informed the Court that it intends to seek 'months' of remarketing of the Debtors' Appalachia business."

Stone Energy Committee Order Issued

The U.S. Bankruptcy Court issued an agreed order resolving Stone Energy's ad hoc committee of shareholders' motion to appoint an official committee of equity security holders. The Court issued a stipulation resolving the motion. According to the stipulation, "Holders of Prepetition Notes Claims shall receive their respective Pro Rata share of (i) the Prepetition Notes Cash, (ii) the New Secured Notes and (iii) the number of shares of New Common Stock constituting ninety-five percent (95%) of the shares of New Common stock to be issued and outstanding pursuant to the Plan on the Effective Date, prior to dilution for the Management Equity Incentive Program and the New Warrants; provided, that in the event the Bankruptcy Court enters an order prior to the Effective Date appointing any official committee of equity security holders....The New Common Stock distributed...shall be increased to ninety-six percent (96%) of the shares of New Common Stock...Holder of Old Common Stock...shall receive its Pro Rata share of the number of shares of the New Common Stock constituting five percent (5%) of the shares of New Common Stock to be issued and outstanding pursuant to the Plan on the Effective Date...provided that in the event the Bankruptcy Court enters an order prior to the Effective Date appointing any official committee of equity security holders....The New Common Stock distributed...shall be reduced to four percent (4%) of the shares of new Common Stock....The Ad Hoc Equity Group will support confirmation of the Plan as amended."

STW Resources Holding Extension Approved

The U.S. Bankruptcy Court approved STW Resources Holding's motion to extend the exclusive period during which the Company can file a Chapter 11 plan and solicit acceptances thereof through and including February 28, 2017 and April 29, 2017, respectively. As previously reported, "The extensions are necessary and appropriate in order for the Debtor to have the opportunity contemplated by the Bankruptcy Code to propose a chapter 11 plan and solicit acceptances of such plan. At the November 1, 2016 evidentiary hearing, the Debtor has made significant progress in furtherance of reorganization under Chapter 11, including, most importantly, the identification of a committed plan sponsor to capitalize the special purpose entity needed to facilitate a feasible plan....With the identification and involvement of Redwood as an important partner in the reorganization process the Debtor expects to move forward more expeditiously. Losing exclusivity at this point, however, could cause this progress to come to halt."

SunEdison Sale Approval Sought

SunEdison filed with the U.S. Bankruptcy Court a motion for an order (a) approving the sale of certain equity interests in Seven Minnesota Projects free and clear to AES Distributed Energy ("Buyer"), (b) approving certain releases in connection therewith and (c) granting related relief. The motion explains, "Aside from the Project Companies covered by the SoCore Sale, one additional Project Company is included in the Sale Transaction--the Stolee project. The PSA contemplates the sale of the Equity Interests in the companies that own the Sale Projects (the 'Project Companies') to the Buyer for a total of \$20,851,700, subject to certain adjustments, and is comprised of a \$13,173,250 development fee (the 'Base Price'), reimbursement of \$3,300,000 of deposits under the State of Minnesota's Community Solar Garden Program ("CSG Deposit Fees"), and reimbursement of \$4,378,450 in estimated interconnection costs (the "Estimated Interconnection Costs") previously paid for by the Debtors (collectively, the 'Purchase Price')....Once the Seller confirmed that SoCore was not interested in closing on the Sale Projects, it began a further marketing process to solicit additional bids, which ran from September 15 through September 30, 2016. The Seller received four bids during the course of this final process. The Buyer's bid was initially the second highest bid, however the high bidder presented substantially greater execution risk. After significant negotiations, the Buyer agreed to match the highest bid by providing an additional \$500,000 in consideration. As a result of these factors, the Seller selected the Buyer to purchase the Equity Interests." The Court scheduled a January 12, 2017 hearing to consider the motion, with objections due by January 5, 2017.

Triangle USA Petroleum Plan Filed

Triangle USA Petroleum (TUSA) filed with the U.S. Bankruptcy Court a First Amended Joint Chapter 11 Plan of Reorganization and related Disclosure Statement. According to the Disclosure Statement, "The Plan sets forth the proposed treatment of Claims against, and Interests in, the Debtors. It provides for payment in full of administrative, priority tax, and other priority claims. Secured claims other than claims arising under the RBL Credit Facility will be paid in full in cash or otherwise left unimpaired. RBL Claims will be paid in full in Cash on the Effective Date. Holders of TUSA General Unsecured Claims, including all Senior Notes Claims, will receive their Pro Rata Share of the new common stock of New TUSA HoldCo, and, to the extent eligible under applicable securities laws and regulations, will have the opportunity to participate in a rights offering for the purchase of up to approximately \$185 million in convertible preferred stock of New TUSA HoldCo. In lieu of new equity in the Reorganized Debtors, Holders of TUSA General Unsecured Claims less than \$150,000 will receive a cash distribution of up to \$0.50 for each \$1.00 of their Allowed Claims; Holders of TUSA General Unsecured Claims greater than \$150,000 may also elect such 'convenience class' treatment by voluntarily reducing their claims to \$150,000. Each Holder of an Allowed Ranger Unsecured Claim will receive its Pro Rata Share of a Cash amount allocated from proceeds of the Rights Offering or another source of plan funding. Distributions under the Plan, and the Reorganized Debtors' future operations, will be funded in part by (a) a new senior secured, reserve-based Exit Facility and (b) a new-money Rights Offering, through which Eligible Holders of TUSA General Unsecured Claims may subscribe for the purchase of up to approximately \$185 Million of Rights Offering Securities. Certain members of the Ad Hoc Noteholder Group have agreed to backstop \$150 million of the Rights Offering."

Ultra Petroleum Trustee Sought

Ultra Petroleum's ad hoc committee of unsecured creditors filed with the U.S. Bankruptcy Court a motion for an order (i) appointing a Chapter 11 trustee or (ii) in the alternative, appointing independent directors to the Company's board. The motion explains, "The Debtors have chosen this path despite their belief that they are solvent. In sum, the Debtors are using these chapter 11 cases for the benefit of their equity holders and structurally junior creditors at the parent level to the detriment of their senior creditors and other parties in interest, who have been completely excluded from the plan negotiation process. Moreover, the Debtors are operating with blatant conflicts of interest that have been brought to the fore by the terms of the PSA and the Plan....At the Debtors' assumed valuation of \$6 billion, management stands to receive its pro rata share of 41% of the pro forma new equity issued under the Plan on account of its Holdco equity ownership (as well as subscription rights to participate in a rights offering for an additional 25% of the new equity) and nearly \$292.5 million under a management incentive plan (the 'MIP') Opco's senior creditors, on the other hand, are being crammed down by an ostensibly highly solvent company. Messrs. Watford and Shaw appear committed to supporting a restructuring that reallocates value from Opco (and the Debtors' senior most creditors) to Holdco, and into their pockets. This self-dealing is highly inappropriate and should not be countenanced....Current management has been given the time and opportunity to 'do the right thing' and they have failed to do so in every instance. Unfortunately, the terms of the PSA and the Plan crystalize the concerns expressed by the Senior Creditor Committee early on in these cases." The Court scheduled a January 19, 2017 hearing on the motion.

Ultra Petroleum Exhibits Filed

Ultra Petroleum filed with the U.S. Bankruptcy Court Disclosure Statement Exhibits for the Joint Chapter 11 Plan of Reorganization. The filing contains the following documents: Exhibit D: financial projections, Exhibit E: valuation analysis, Exhibit F: liquidation analysis and Exhibit H: summary of certain indicative terms and conditions of the New OpCo notes and additional new OpCo Notes (the "New OpCo Notes Term Sheet").
